Over the next three pages, I'm going to share with you a technique and process I've developed over the years. First, you'll need to get your materials in order. When you're finished, it's time to scan it in. 18 Open files Scan at high res and open the files in Photoshop. Here, we're creating the main typography for a fictional tattoo parlour called 'Pounds for Flesh'. Instead of making them solid black, you might want to try out some effects. If it doesn't, restart the download. So, if you're in need of a font for your latest design or just like to keep a collection so you're prepared, we may be able to help out. Discover the best free brush fonts Every day, we're running 'Font of the day', where we'll be posting the best free and paid-for fonts the web has to offer. Into The Light by Joao Paulo Pereira into The Light is a typeface created by Joao Paulo Pereira with fluorescent sticks. Get two loose sheets of tracing paper and line them up on top of one another. Antenna Light font 107020 Aug 02 2010 Fonts Download Antenna Light font. Tweak the sliders so that the blacks get darker and the whites get lighter, creating more contrast. 19 Photoshop magic Now choose Select > Colour Range. Note that you'll need to take into account the spurs on the o and the serifs on the r when you're doing this. 10 Tie a ribbon Time to add some decoration. I've experimented with creating the illusion of light with stippling, or making strokes that fade as they pass into the light. 17 Experiment Don't be afraid to experiment: you can easily replace the top sheet, so you don't have to start again from scratch. Read these! This tutorial will walk you through a technique for developing your own expressive, playful, hand-drawn type. If the problem remains the same, please contact the administrator. Begin tracing your outlines with a pen. 16 Add effects With the outlines ready, let's fill them in. Ascertain why you like them, and what consistencies and inconsistencies are apparent. Next, open up your sketchbook and begin loosely experimenting with different typefaces. Open a program such as Adobe InDesign or Illustrator and type out the alphabet in a few favourites. Measure the width of 'Pounds', adding vertical guides aligned to the stem of P and the end of s to use as start and end points. Remove the bottom sheet of tracing paper and place a fresh new sheet over the top, sticking it down with masking tape. Keep the s's curve at 1.5cm in the centre, so it matches the stems in the rest of the characters. 14 Finesse it Once you're happy, it's time to use the top sheet of tracing paper you attached earlier to really add finesse to your drawing. They come in 3190x3190px RGB images with 300ppi, and all you gave to do to get hold of Into The Light for personal or commercial use is tweet. You can download Into The Light for free over on Behance. Liked this? From that point, draw lines across the full width in 4cm increments, as shown here. 6 Simple rules Our first word has six characters, which we'll space equally across the top. I've marked up more consistencies to consider, too. 13 Describe a curve The letter's s will be the trickiest - with the other characters being so straight, it will stick out like a sore thumb, throwing off the balance of the word. Note the o here, which now has a vertical stress to the centre. Start by loosely sketching your characters, paying attention to the spacing across the full width of the page and between each character, as well as their height. Let's begin. 1 Study fonts Begin by familiarising yourself with the characters in fonts. Remember that you can just replace the paper if you need to start over because you think you can do better. 15 Ink up When you've completed the top sheet, it's time to use it as the template for inking up a final version. Yes, it takes practice, but each time you try, you'll learn a whole heap of new things. For example, designing your own type really helps you appreciate how subtle differences can have a big overall effect and how the wrong type choices can really dull your concept. Hit Shift+Delete. However, we need to lay down a couple of rules, and best free fonts posts on our sister site Creative Bloq. SIMILAR FREE FONTS for Antenna Light What Font Is the best font finder for you! Nothing too fancy: just some A3 tracing paper, a 2H pencil, fine liners, a good rubber, sharpener, ruler and some masking tape. Use a

strip of masking tape to stick them together, folding it over the top.5 Draw guidesOn the bottom sheet, you can place your characters accurately. Most of these characters (each 5.5cm wide) are made of the same parts. If they invade your copyright, please contact us: support@fontke.com,we will deal with it as soon as possible. Aim for around 1cm for the width of the u's stems (marked in the image).7 Sketch charactersThis step requires a bit of trial and error. This tutorial is going to help get you get started with making your own fonts. I've then gone on to space the f and r equally on either side. In our example, this is 'for'. The stems are 1.5cm wide with a line set 5mm to the left. Don't try to be exact; just get a feel for the drawing and spacing.8 Introduce consistencyNext, make some slight changes to some of the characters to introduce consistency. You'll be guided through idea generation and character design and given tips on ways to govern space to create balance and harmony to your creations. 6.1k views 11.2k views 7.4k views 4.2k views 8k views 4.2k views 5.8k views 11.3k views 4.9k views 4.8k views 4.9k views 4.2k views 5k views 6.2k views 4.2k views 5.8k views 4.6k views 11.3k views 6k views 6.1k views Here at Creative Blog, we're big fans of typography and we're constantly on the hunt for new and exciting typefaces – especially free fonts. The set consists of 27 letters, 10 numbers and one lightning bolt (obviously). I messed up 'Flesh', making the lines too thick and creating a dodgy H, so I started over on a new top sheet. You now have a free object that you can use as you please.For more info on type terms and tips, check out the What is Typography? Please do not download files using any download software in order to prevent download failure If you find the download link automatically go to the content, please login to download. This should be the fun part. I've begun by drawing the central o smack in the middle of my page, which fills up a space that's around 2.5x2.5cm in size. Then create a baseline by drawing a guide 1cm above the lowest guide already in place.12 Strike a balanceBegin sketching out 'Flesh', trying to strike a balance between each letterform. You can use the file Loosesketchreference.jpg for inspiration.4 Two sheetsOnce you're happy with your loose sketch, it's time to start a bigger, more focused version. Place two stars evenly from the f and r and then start tackling a ribbon shape. Select a colour you like and press Return. Eventually, I realised it might be a good idea if I started reaching for my pen and pad to design my own solutions, rather than getting bogged down in those nightmare lists of indecision.Getting familiar with the ins and outs of characters, and trying to capture the mood you're wanting to convey with typography is a handy skill set. If, like me, you only have an A4 scanner, stitch the two pieces together and select Image > Adjustments > Levels. Give the 'for' some breathing room and ensure you keep the width and height equal throughout the four sections: the front, the wraparound and the ends.11 Flesh it outNow let's move on to 'Flesh'. For example, the o and n need to be wider than the d, u and s. Study your characters, checking each one to see where consistency can be incorporated.9 Draw oOnce you're happy with how your first word is working out, it's time to move on to the next one. Click on the highlighted area and press OK. Start by drawing some characters from your favourites list; as you build in confidence, begin adding your own.
